

Morning Journal.

By the Albuquerque Publishing Co.

W. M. ALLISON, Manager.

W. E. Talbot, wholesale and retail liquor dealer. Depot for choice wines, liquors and cigars, Albuquerque, N. M. Carries the largest and finest stock of wine and liquors of any house in the southwest, and makes a specialty of fine old whiskeys. A full and complete line of wines, liquors and champagnes for family and medicinal use. Talbot's sample room is all its appointments is superior to any in the territory. Celebrated for its choice wines, liquors and cigars. Sole agent for Philip Best's celebrated Milwaukee beer. Talbot's "Montezuma" billiard and reading room; new Brunswick tables. All the leading daily and illustrated papers on file. Acknowledged by all as the most popular resort in the southwest for traveling men. Every thing first-class.

John D. Tordella has gone south. Little work for the police, but the town was alive all day.

Mr. and Mrs. A. E. Eisman returned home yesterday.

The Want Column will be found on the second page of this issue.

W. K. P. Wilson is back from Denver, Colo., after quite an extended absence.

Judge Sullivan, Judge Burke, Tom F. Phelan, and John H. Sullivan, Jr. bore aloft the proud banner during the afternoon.

Gen. Charles Adams postoffice inspector from headquarters at Denver came up from the south yesterday morning and spent the day at the Armijo.

Enterprising! That's the word that suits such a firm as Leonard & Young. They use printers ink in a manner that shows how fully they appreciate its effects.

Sunday afternoon two men of the colored persuasion got into a slight difficulty in the old Globe saloon, but Justice Sullivan happened along just in time and took them both for a walk.

Edward Trust, representing R. L. Polk & Co., publishers of the Gazetteer and Business Directory, called at THE JOURNAL office yesterday. This directory is about the only thing of the kind that we have in the west, and it is certainly made so complete that none can afford to be without it.

DEATH OF W. H. HENRI.

The "Emperor of Chilli" dies suddenly.

William H. Henri, whom everybody in the country knew, is dead. He had been stopping in this city several days, sleeping over at Hunnings store in old town. On Saturday he was on the street seemingly as well as usual and retired during the evening showing no signs of sickness. He had evidently, from the position in which he was found, fallen or rolled from his bed and this circumstance made it necessary to hold no inquest. The coroner jury found that death resulted from natural causes.

Mr. Henri came to this country as early as 1845, and took up his residence in this country. He was a practicing lawyer at that time, and those who knew him then say there were none in the west who were superior to him. He was twice elected Probate Judge of this county, and was once the attorney of this judicial district. His abilities are said to have been of a high order, although in later years were somewhat dwarfed by the terrible disease he could not shake off. His integrity was beyond all question, and he would have staked his life to uphold it. He early settled on the Chilli grant, and by his learning became a sort of leader in that community and thus gained the title of "Emperor of Chilli."

A meeting of the bar was held at the office of Judge Whitten yesterday afternoon, at which the latter gentleman presided, and A. J. Barr, Esq., acted as secretary.

Messrs. Crane, Barr, and Sullivan were appointed a committee on resolutions, and presented the following:

Resolved: That the members of the Bar of the 2nd Judicial District of New Mexico, resident at Albuquerque learn with sorrow the fate of one whose kindness of heart was known and felt by all who knew him; whose politeness and affability were the admiration of friends and strangers alike, whose talents and whose versatility and integrity were unquestioned, and whose ability only waned when his frame succumbed to the inroads of disease which had for years afflicted him.

Resolved: That our sympathies and condolence be extended to the mother whom he was known to love so well and to his other relatives and friends.

Resolved: That so many of us as possible attend the funeral and so pay what tribute we may to our respect for the good qualities of one who has "only gone before us."

Resolved: That these resolutions and preamble be published in the daily papers and that copies be sent to such of the relatives of deceased whose addresses may be known.

After remarks by a number of gentlemen present the resolutions were adopted and the meeting adjourned.

Lost. A gold enameled heart shaped locket, miniature enclosed. Return to this office and obtain reward.

If you want fresh Vienna bread or elegant confectionary call at the Vienna Bakery on Railroad avenue.

We please all customers, good clean shave, hair cutting, etc., new barber. All come to St. Julien barber shop, corner R. R. avenue and Second street.

A car load of meat and lard just received at S. D. Cady & Co's.

The Vienna Bakery on Railroad avenue has the finest bread in the city.

THE COMMISSIONERS VS. SHERIFF.

Argument on the Injunction Before Judge Bell.

It was a very interesting sight that greeted the eyes of THE JOURNAL reporter as he stepped into the law office of Neill B. Field, Esq., yesterday morning. His Honor Judge Bell, sat behind the large office desk while on either side were arrayed the opposing counsel. W. S. Stone, Esq., stood leaning easily against the desk holding a copy of the injunction in his hand prepared to open the day's proceedings. W. T. Thornton and Attorney General Breiden who were associated with Mr. Stone for the commissions lollied easily back in large arm chairs the former tugging at his moustache thoughtlessly, while the Attorney General was hunting some knotty law point from among the numerous volumes that lay on the desk before him. W. B. Childers, Esq., who together with Neill B. Field represents the Sheriff sat just in rear of His Honor watching very intently each word that dropped from any quarter. Mr. Field sitting close by his associate, was making a hasty examination of the numerous papers that had been filed in the case on either side. The remainder of the room was well filled with interested spectators including Commissioners Justo Armijo and Talbot, Sheriff Armijo, Judge Trimble, Bernard Rodery and many others.

Mr. Stone commenced by reading the prayer for the injunction as filed on the part of the Sheriff. It was a lengthy document and the reading took some time. Mr. Stone then stated that his associates and himself had deemed it best to demur to the bill and he presented the demurrer in a form of an affidavit. "This affidavit," said the attorney, "admits all the formal points as set forth in the bill. We admit that the Sheriff did make a partial statement of his account on Feb'y 19. We admit that he was first appointed and then afterwards elected to the office of Sheriff. We have no means of knowing whether or not the late Melchior Werner kept his books in a proper manner. We deny every material allegation in the bill collectively and specifically and we shall contend that having denied every material allegation as here set forth, your honor must dissolve the injunction."

W. T. Thornton then cited a large number of authorities going to show that the method pursued by the sheriff's advisers should have been by appeal or certiorari and not by an injunction. He went on to state that if the court should make the injunction perpetual it would forever enjoin the commissioners from removing the sheriff, no matter how much of the county's funds he might see fit to appropriate. He contended that under the law the moment the sheriff had been delinquent, in a settlement, for thirty days, he was removed ipso facto and it required no action by the board. Judge Bell here announced a recess until 1:45 o'clock.

AFTERNOON SESSION.

Neill B. Field, Esq., opened the case on the part of the sheriff by taking the position that the County Board is not a court and he cited an opinion in an Idaho case where that point is laid down. He then went on to argue as to the question of removal and said that if the sheriff had not been removed as the other side claimed then an injunction was the proper method to restrain the Board from removing him. He cited a number of authorities going to show that the offices of Sheriff and Collector are distinct and separate.

W. B. Childers, Esq., denied that the other side had answered a single one of the equities in the bill. They might deny certain facts now, but those facts were not set forth in their affidavit. Counsel argued at some length as to the question of the proper method to pursue in a case of this kind, and cited a long list of authorities in support of the position. He said the board should have sent word to the sheriff before they acted. He spoke of the receipts for licenses and fines still in the hands of the sheriff, and for which he had not received credit.

Attorney-General William Breiden closed the case in a very brief, but pointed argument during which he disclaimed any idea that the sheriff had taken any money from the county's funds with criminal intent. The speaker paid particular attention to the question as to whether a court of equity would interfere in a case of this kind. He believed there was a full remedy at law for the sheriff, but he did not believe that the injunction could stand. He went on to show how nearly the offices of sheriff and tax collector are one and the same and, also, went into the question as to whether or not the County Board is a judicial body being satisfied that they are not in the sense as applied to courts of record. Judge Bell took the case under advisement and will probably decide it some time next week.

Against the Seal.

A large and wholly unanimous meeting was held at the Board of Trade rooms, in this city, last evening; to remonstrate against the plundering of the Territorial treasury for the building of a \$300,000 capitol. They very decided expressions of opinion left no room for doubt that our business men and taxpayers generally are decidedly opposed to any job of this kind. A remonstrance against the passage of the act will be prepared to-day and forwarded to the capitol.

Obituary.

Died, at the residence of her uncle, N. B. Miller, on Fourth street, on the 17th inst. Miss Lillian E. Todd, aged 18 years and 10 days.

The deceased came from Pen Yan, N. Y., with her uncle and his family, in the hope of escaping the fatal results of that dread destroyer, consumption; but unfortunately she waited too long, and like many others who "come to die," crossed the silent river after a very short sojourn, having arrived here on the 7th of last January. Miss Todd was an intelligent and interesting girl, whose loss will leave an aching void in the hearts of many old and new friends. She was attended and cared for by kind neighbors, who deeply sympathized with the bereaved friends. A telegram was received yesterday from her mother, stating that she would start for this city last night, in response to a message that the daughter was sinking. It is hoped, however, that she received the message announcing her daughter's death before she started.

gent and interesting girl, whose loss will leave an aching void in the hearts of many old and new friends. She was attended and cared for by kind neighbors, who deeply sympathized with the bereaved friends. A telegram was received yesterday from her mother, stating that she would start for this city last night, in response to a message that the daughter was sinking. It is hoped, however, that she received the message announcing her daughter's death before she started.

THE STOCK GROWERS.

What was done yesterday in the way of forming a permanent organization.

At 10:30 o'clock yesterday morning the Board of Trade room, in the Central Bank building was comfortably filled with stockmen from this section, who had pursuant to the call published in THE JOURNAL, gathered together for the purpose of organization.

Walter G. Marmon, of Laguna, was called upon to preside and Mr. M. B. Bowman of the Devenport Cattle company acted as secretary.

The chairman called upon Charles W. Kennedy to state the object of the meeting, and that gentleman responded by saying that a number of the stockmen in this section of the Territory had commenced in January, canvassing the counties of Bernalillo, Valencia, Santa Fe and Socorro in the hope of forming a stock association. They had started out to organize what they called the "Central New Mexico Stock Growers Association." About thirty had signed the call. Mr. Kennedy said the work was one in which all were interested and for which everyone present ought to be willing to labor. Those who had signed the call represented fully 30,000 head of cattle and a tax of only about 5 cts. a head would be amply sufficient to pay all rewards and other expenses.

A motion was made, and carried, that the chair appoint a committee of five on permanent organization and by-laws. The chair appointed Messrs. Kennedy, Culver, Buoy, Bowman, Hulvey. On motion the chairman was added to the committee.

It was moved and carried that the committee be instructed to formulate a constitution and by-laws and that they be reported at the next meeting.

Col. Buoy was anxious that this work be done just as soon as possible as the spring is now pretty well advanced. We must fix a time for the round-up and that can't be very far off.

W. H. Hulvey said that there never had been a round-up in this section. Every man rounded up to suit himself. They have round-ups in Arizona and New Mexico ought to do the same. Mr. Hulvey suggested that the first of May, be fixed as the date for the round-up to commence.

Mr. Bowman said he feared the first of May would be altogether too early for his section as the grass would hardly be started by that time.

G. B. Landers stated that he thought at the time for commencing the round-up should be fixed each year by the association, and not fixed on the same day for all years. Some years the spring was much later than on other years.

Col. Buoy gave his experience on the round-up in Texas, and told how they were managed.

Messrs. Zeiger, Hulvey, and Kennedy discussed the question.

The meeting here took a recess until 2 o'clock.

AFTERNOON SESSION.

The meeting reassembled promptly. It was resolved that THE JOURNAL and other papers of the city be requested to publish a call, inviting all stockmen to meet in Albuquerque on Tuesday, April 1, 1884, for the purpose of permanent organization. That a committee of three be appointed to make arrangements for a suitable place in which to hold the meeting. Charles Zeiger, I. K. Bayse, and C. W. Kennedy were appointed as such committee.

It was moved and seconded that chairman Marmon be appointed a committee of one to proceed to Socorro on the 25th of the present month and go before the meeting there with a request that they consolidate with the organization here.

Messrs. Zeiger, Hulvey and Culver were appointed a finance committee.

The meeting then adjourned to meet April 1st in this city.

Among others present the reporter noticed: Charles Zeiger, W. H. Hulvey, P. B. Culver, W. G. Marmon, R. P. Thompson, Simon Bibb, J. B. McClellan, G. B. Landers, C. W. Kennedy, Nathan Bibb, Messrs. Jones, Codington, Trask, Buoy and Bowman.

The evening sheet stated last evening that the wires were all down and that they would not be connected before midnight. THE JOURNAL received fifteen pages of dispatches by 6 p. m., and a very thirty pages by 11 p. m. The dispatches in the Democrat last evening were bogus in almost every instance.

The lecture at the M. E. Church on Thursday evening, by Prof. R. W. D. Bryan, cannot help but be interesting. The Professor is so thoroughly up on the Indian question that his remarks will be highly entertaining. The tickets are only 25 cents, and the lecture is in aid of the Library Association.

Although a large and enthusiastic meeting of the stock growers of this section was held yesterday morning, in the Board of Trade rooms, the Democrat never mentioned the fact. This is in furtherance of its plan to antagonize the stock interests of the Territory.

THE JOURNAL is authorized to say that the announcement of a marriage engagement will soon be made public, to which a tonsorial artist of the new town and a wealthy young lady of the old town are the contracting parties.

The Clipper band enlivened the streets yesterday, and helped to celebrate the day in a becoming manner.

R. C. YOSE, President.
